

FIT5145: Assignment 2 Rubric

Due Date: Friday, Week 8 (May 2, 2025), 11:55 PM

This assignment must be completed using **R**. Please see Moodle for your task specification.

General points:

- **Late submission:** Late submissions will have a **penalty of 5% per day**, including weekends and public holidays **for up to 7 days**. Assessment items handed in after 7 days will not be considered.
- **Please do NOT zip your submission files:** Zip file submission will have a **penalty of 20%**.
- Assignment should be submitted in two files (PDF report and RMD file):
 - Failing to submit one of the two files will result in losing 20% of the total mark of this assignment.
 - An RMD file that generates errors when running will not be considered.
- **Drafts (not submitted):** Please make sure to submit your assignments that are in draft mode. We **will not accept** the assignments that are **not yet submitted**.
- If codes or code outputs are not included in pdf or if codes are provided as screenshots, marks will be deducted.
- **Acknowledgement of sources:** Plagiarism or unauthorised collaboration will result in an **automatic fail**.
- **Generative AI Use:** In this assessment, you can use generative artificial intelligence (AI) in order to search for R functions and examples to perform tasks that you specify only.

	You are currently working in this range:	
Coding 55%	Some errors	Error free
Visualisation 25%	Misleading	Correctly and clearly shows plus adding labelled axes
Justify answers 20%	Correct answer, poor/no justification	Correct answer, strong justification
