

Theme	Topics and Questions
Introduction	Thank the participant for their time
Participant demographic <ul style="list-style-type: none"> - Year of study/experience - Expertise level of participant - Learning style 	<p>Would you like to introduce your education and work experience background?</p> <p>Do you prefer being assessed by exams or assignments?</p> <p>How difficult did you find learning content before/after gen AI?</p>
Behaviour	<p>How often do you use gen AI?</p> <p>In what manner would you describe gen AI's helpfulness to be? [E.g. faster? more complete? more concise?]</p> <p>Can you describe one instance of how you might use gen AI?</p> <p>How do you deal with gen AI's unclear factual correctness?</p> <p>When do you fact check gen AI? / How quickly are you sceptical of gen AI answers?</p>
Attitudes	<p>When you need to search for something, when do you choose gen AI vs traditional sources? [What makes you choose gen AI in particular?]</p> <p>What do you usually use gen AI for? [E.g. exploring topics, refining your existing work, maybe asking for a whole guideline]</p> <p><i>*if not already answered:</i> How much do you refine gen AI's answers/take it for granted?</p>
Beliefs	<p>How do you find the quality of gen AI as a tool?</p> <p>What do you think of how it impacts your learning experience?</p>

	<p><i>*if learning experience negatively impacted:</i> Do you think this [the volume/practical experience] is worth the tradeoff?</p> <p><i>*else:</i> Do you think gen AI is overall a good learning tool, then?</p> <p>Do you think students using gen AI to help complete their work is authentic work? How much of that do you say is through their own effort?</p> <p><i>*If not authentic:</i> Do you think the results justify the means?</p> <p>Do you have any other thoughts you would like to share about gen AI that you haven't had a chance to cover?</p>
